PA NEW OBSERVES

Mrs. Mary Kersey of the Dean Block reports to Pa New that she has a testament, held together with squirrel skin, over 113 years old. The testament was given to her by her father in Tennessee.

Report is made to Pa New that an unusual sight was witnessed in a yard on Haverford avenue yesterday, when a flock of crows or more birds of a blue color, alighted, and made quite a visit. It is believed that the birds were bluebirds, and such a large flock of this species is most unusual. Pa New is informed.

Porch lights were burning at hundreds of homes around the city last night, Pa New noted. Probably as a discouragement for would-be Halloween prowlers.

No formal observance of Halloween in the way of mummer's parades is scheduled for New Castle tonight. There will be the usual house to house visits of masqueraders, it is indicated, and extra police authorities will be on watch throughout the city to prevent vandalism.

Nearly 12,000,000 pounds of game were bagged by hunters in Pennsylvania last season, according to Ross L. Lettler, president, Pennsylvania Game commission. More than 12,000,000 pounds were bagged the year before, the added weight of almost 15,000 antlers deer accounted for most of the difference.

Truman Smiles At Mention Of 1948

President Asked About Running For Re-election, But Sidesteps Issue

WASHINGTON, Oct. 31.—(INS)—President Truman smiled today as he told Washington newsmen and radio commentators he had been too busy to give any thought to his candidacy for reelection in 1948.

For the first time since he became president in 1945, he was asked at his news conference whether he would be a candidate for reelection.

The question brought a broad smile to his face and a ripple of laughter through the room.

He replied that the matter had not entered his thoughts—that he has been too busy with other things, and that he did not believe he should be placed in a position of committing himself at this time.

No Formal Celebration Of Halloween In City

Cowboys and Indians, witches and tramps, ghosts and skeletons will visit your home tonight and you should give them a welcome. Not to mention some candy or fruit or nuts. It is the night of the year the youngsters dress up and go from door to door seeking Halloween favors.

No formal celebration is listed for the city tonight as was the custom in past years. No parades were arranged and the marking of the ancient night will be entirely confined to house parties, and of course the kids out on the streets.

Police Out In Force
It would be too much to say that the old style mischief on Halloween will be missing tonight for some of it has already been in evidence. Not as much as there once was of course, but some City policemen will be on the lookout tonight for those who masking in Halloween garb set out on an evening of property destruction.

Early today the weather man seemed to be frowning upon any outside activities for rain seemed to be promised before dark. But wet or dry, it's Halloween night, the night when the witches ride the skies on broomsticks and headless horsemen go galumphing down country roads.

For a comfortable observation of the night we suggest an open fire, some comfortable lounging chairs, plenty of nuts and apples, and perhaps a few sandwiches. We would suggest homemade candy but where are you going to get enough sugar for that?

There was a day when Adolf Schickelguber, Hitler to you, spent a lot of time riding around in his one day coupe of American soldiers captured the car, said Adolf disappeared and the car was brought to America.

Rationing Of Shoes At End

All Restrictions On Sale And Purchase Of Footwear Lifted Today

WASHINGTON, Oct. 31.—(INS)—The nation's shoe stores were open for business on a non-ration basis today for the first time since February 8, 1943.

With all restrictions off on the sale and purchase of footwear, there was some dispute, however, as to whether the end of rationing would cause a run on stocks or whether customers would postpone their buying until supplies became more plentiful.

Some seventy-five million shoe coupons are still outstanding, and some OPA officials took the view that the public hasn't been particularly eager to cash them in.

All Controls Lifted
OPA lifted all controls on the War Production board's assurance that shoe output will reach 29 to 30 million pairs per month in November and December. OPA said this would be equal to normal pre-war consumer demand.

A WPB spokesman optimistically reported that high quality sole and cattle-hide leather is now available in greater quantity than before the war, indicating that the raw material bottleneck has been virtually solved.

Although the manpower situation has reportedly eased, shoe industry representatives are now in Wash-

France Demands German Plants As Reparations

WIESBADEN, Germany, Oct. 31.—(INS)—International News Service learned officially today that France has demanded 36 large industrial plants as part payment of German reparations, as provided under the Potsdam agreement.

The French representative putting forth the demands submitted a list of materials urgently needed for the industrial recovery of France.

Expenses incidental to dismantling and transporting the plants will be chargeable to France. The French wish to dispatch the necessary specialists to examine the materials.

The plants requested include four iron metallurgy factories, 14 mechanical and electrical construction installations, three chemical plants—two of which comprise 12 units of the I. G. Farben company. Also included on the list are 8,500 railway tank cars.

The French memorandum pointed out that France before the war had 18,176 tank cars and now has only 9,145. It added that while Germany had 22,000 before the war the figure jumped to 40,000 after the fall of France.

Furthermore, the memorandum suggested that future peace-time needs of Germany can be estimated as an average of 12,000 cars. This was taken to indicate a surplus of 28,000, though no mention was made of the vast numbers destroyed by allied armies during the last months of the battle of Germany.

Soviet Russia Answers Britain

Do Not Consider British Interests In Balkans Affected By Agreements

LONDON, Oct. 31.—(INS)—The British government was notified by the Soviet Union today that Moscow does not consider British interests were affected by unilateral trade agreements with Hungary and Romania.

The reply to British representations to Moscow concerning the Soviet action in formulating commercial treaties with the Balkan countries was announced in the House of Commons by Foreign Secretary Ernest Bevin.

Both Britain and the United States had criticized the Soviet move made without consultation with London and Washington. The Russians were seen as taking the position that the commercial pacts did not violate the Big Three Potsdam agreement under which none of the principals was to conclude peace treaties separately.

Details Of Jap Atrocities Being Related At Trial

Many More Cases Of Japanese Bestiality Told At Yamashita's Trial

By PAT ROBINSON
(U. S. Staff Correspondent)

MANILA, Oct. 31.—Additional sickening details of Japanese atrocities in the Philippines were written in the official record today at the close of the third session of Gen. Tomoyuki Yamashita's war crimes trial.

Six more cases of Japanese bestiality were reviewed while the defendant, on trial for his life, sat apparently unmoved and almost unnoticed in the crowded courtroom.

The long parade of witnesses, including a sobbing widow, a white-cowled nun and a priest, testified to the slaughter of hundreds of persons in the destruction of St. Paul's college, the burning of homes and Japanese murders in a psychopathic hospital.

Tells Of Bestiality
A beautiful Spanish girl today described how one Jap soldier tore a baby from its mother's arms and tossed it in the air while another Jap killed the infant by catching it on his bayonet.

A doctor told how the Jap soldiers bayoneted and shot dead 30 men and women. He said he saw a Jap officer grab a 15-year-old girl by the hair and behold her with his sword.

The nun and several men and girls described the destruction at St. Paul's where hundreds were forced into the dining rooms. Groceries had been planted in shaded light by the Japs. The Japs then brought in rum and canvas for the crowd and then pulled a string which strewn to the corridor exploding the grenades and killing or maiming scores of persons in the room.

Kill Those Attempting Flight
Those who tried to flee were machine-gunned and bayoneted by waiting Japs, according to the testimony.

Senora Rosario Yulo, 34-year-old widow, made a dramatic appearance on the witness stand in the third day of the trial today as she sobbed out the story of the deaths of her young son and daughter, her husband, her sister and her sister-in-law at the hands of the Japanese.

The widow herself was wounded by the Japs when they bayoneted

Eleventh Hour Rush By Hunters To Get Licenses

Filling the county treasurer's office and overflowing out into the corridor, hunters kept the treasurer's office on the hop today. Tomorrow the hunting season opens and the rush for licenses this year tops anything the county has ever seen.

Shortly before noon today County Treasurer Frank W. Hill said he had issued 1,514 resident licenses and 326 non-resident licenses through his office since the demand for licenses started. In addition, there are many other places where licenses are available, such as aldermen and justices of the peace, hardware stores, sporting goods stores and the like. The total must run up well over several thousand.

In order to accommodate the last-minute hunters who could not get into the office in the daytime, Mr. Hill will keep the office open until 10 o'clock tonight, he announced.

According to the report the accident occurred in front of Richmond's store, East Washington street. His condition is reported as good this morning.

This legislation includes universal military training, the full employment bill, atomic control and unemployment compensation.

The president made the statement in answer to a question at his news conference.

New Blow Is Aimed At Jap War Ideology

TOKYO, Oct. 31.—(INS)—Gen. Douglas MacArthur's headquarters struck anew today at the remnants of Japan's war ideology by ordering immediate dismissal of all known militarists and ultra-nationalists from the Japanese school system.

The directive as dictated by the Allied powers also temporarily prohibited demobilized members of Jap military forces from accepting teaching positions pending determination of their qualifications.

The ban on militarists and ultra-nationalists supplemented the Allied directive of October 22 which ordered a broad overhauling of Japan's school system.

The Japanese were directed in today's order to set up machinery for the screening of all present and prospective teachers in order to determine those acceptable to Allied headquarters. An estimated 400,000 teachers in Japan will be subjected to investigation.

Headquarters left no doubt of the purpose of the directive and specifically stated that it was aimed at "all persons known to be antagonistic to the objectives and policies of the occupation" presently employed in the Jap educational system.

The new move was in line with present Allied efforts to re-educate the Japanese people along democratic lines.

Free Balloon On Long Trip

LAKEHURST, N. J., Oct. 31.—(INS)—A 35,000 cubic foot free balloon was the cause of wild speculation among residents as it soared from its takeoff point at the Lakehurst naval air station to a point about 75 miles west of Montreal, Canada.

Authorities at Lakehurst said the free balloon began its flight yesterday and it was in the air 14 hours. Lt. H. P. Smith of Maniwic, N. J., was the pilot and Lt. W. J. Gunther of Escondido, Calif. the co-pilot.

PALESTINE PROBLEM IS STILL UNSETTLED

WASHINGTON, Oct. 31.—(INS)—President Truman declined to be drawn out further today on the Palestine problem.

He said there has been an exchange of several communications between himself and Prime Minister Attlee on the matter.

The whole question, however, is still under discussion, he said, and therefore he does not wish to discuss it until final decisions are reached.

Labor-Industry Study Truman's Wage-Price Plan

President Advocates Pay Increases While Curbing General Price Rise

SEEKING TO END STRIKE EPIDEMICS

By ROBERT G. NIXON
(U. S. Staff Correspondent)

WASHINGTON, Oct. 31.—Labor and industry closely studied today President Truman's new wage-price policy calling for pay increases to counter loss of high wartime income while curbing a general rise in prices.

Management and union officials, including President William Green of the AFL and Philip Murray, head

WASHINGTON, Oct. 31.—(INS)—President Truman said today that in calling for "imperative" wage increases without price rises he avoided a specific percentage because no such general recommendation industry-wide is possible.

The chief executive told a news conference this morning that each case where wage rises are needed is an individual one and must be considered by labor and industry on its own merits.

Labor generally is asking for a 30 per cent boost. He said that the method of labor and industry handling each problem of buffering the shock of reduction from high war-time take-home pay must be on a basis of collective bargaining.

The first reaction of labor came from officials of the CIO's United Automobile Workers union who heaped the president's message and indicated a would-stiffen their fight for a 30-percent wage increase in the auto industry.

Mr. Truman did not mention any specific percentage increase in pay envelopes but left the amount to be determined by collective bargaining in good faith. He issued an executive order to the stabilization

Woman To Relate Shooting Details

Will Tell Court How She Shot Her Husband And Buried Body In Hoc Pen

WINEFIELD, W. Va., Oct. 31.—(INS)—Mrs. Elizabeth Amos, 34, was scheduled to take the witness stand today and relate the sordid details of the shotgun slaying of her husband and the burial in a crude grave near their mountain home near Hurricane.

Before the state rested its case yesterday Pearl M. Amos, 30, testified a hickswoman who said his mother used to "cut off my father's legs" when she was unable to place the body in the small grave. Young Amos said a jury of mountain folks that his dad had been used to make the body from their home to a log for where it was buried.

Mrs. Amos told Prosecutor C. E. Copen that the grave was dug by her husband and was intended for her.

PALESTINE PLAN TO BE PUBLISHED

LONDON, Oct. 31.—(INS)—The London Daily Express reported today that the British government will publish an official plan for Palestine within the next few days.

Main provision of the plan, the newspaper said, will be for a semi-Arabic-American commission of inquiry.

Foreign Minister Ernest Bevin was reported to have persuaded American Secretary of State James F. Byrnes that if the United States wishes to take a clear interest in the Palestine problem, she must also take some responsibility for that country's future.

Halloween Costume Fire Proves Fatal

YORK, Pa., Oct. 31.—(INS)—Four-year-old Linda Sue Roth of West York died last night in the York hospital of third degree burns sustained when her Halloween costume caught fire from a lighted jack-o'-lantern.

Mrs. Byron Smith, a neighbor, was reported to have rushed the child to the hospital and for some time nursing her and applying ointment to soothe the flames.

Adams county Chief Deputy Coroner Curtis A. Ferry said the little girl's costume was ignited when she tried to light the jack-o'-lantern. She was wearing a costume of paper and pumpkins and the fire spread to her hair and neck.

of Iran's oil fields and a route through that country toward the Indian ocean. In addition, she would exercise indirect control of the port of Trieste, which she demands be taken from Italy and given to Yugoslavia.

If these ambitions are all realized, in addition to her present domination of "liberated" lands, they would comprehend perhaps the most far-reaching scope of power and influence ever accruing to any nation in history—from the Kuriles in the Pacific to the Straits of Gibraltar. The impression, prevailing among

certain of our diplomats, that many of the Russian demands are made for more trading purposes, is likely to prove delusive. There is nothing in the record of Russia's movements in Poland, Austria, Romania, Bulgaria or Hungary to indicate that the present program represents a mere "asking price." Realism would seem to recognize the Russian scheme of imperialist expansion as a fixed purpose and not a game of diplomatic bluff.

Great Britain, of course, would be the chief opponent of these large Russian plans for the Mediterranean and the Red Sea. Russia holding Tangier, with a Communist government in Spain, would be far from comfortable for the British. Our own direct concern in Mt. Stal-in's program would apply only to the Kuriles and the probability that he will oppose our control of cer-

tain islands captured from Japan. The London conference seems to show pretty definitely that Russia is determined to be a sea power and a competitor for commerce in all parts of the world.

With the Junior Red Cross membership drive about to begin in the schools of the city, about 30 teachers who sponsor the JRC in the various schools, together with members of the Junior Red Cross committee, attended a dinner in the lo- can chapter house on Beaver street Tuesday evening.

Miss Emma Maxwell, co-chairman of the JRC committee, presided in the absence of Dr. John Meehan, and the main talk of the evening was given by Miss Elizabeth Breslin, executive secretary of the Lawrence county chapter.

Displays of Christmas gift boxes now being packed by the school children of the county for shipment overseas were shown, as well as menu covers for the navy hospitals and other JRC projects.

A meeting of the JRC council of both the elementary and secondary schools will be held in the chapter house on Saturday morning at 10 o'clock. Miss Breslin announced. Council officers will be elected for the year.

Members of the Red Cross Cadet Corps served an excellent dinner to the group under the supervision of Mrs. Russell Allen. Mrs. Roy Long is chairman of the corps. Among those present was a group of eight teachers from the Ellwood City school. The JRC drive will occur from November 1 to 15.

MUSIC CLUB HEARS "LIEDER" PROGRAM

Tuesday evening the Music club held its second meeting of the season in the Highland U. P. church. Mrs. J. J. McIlvaine presided as hostess in the unexpected absence of Mrs. David T. Evans.

She pointed out that German lieder, the subject of the evening's program, includes three types of song: folk, popular and artistic, the last being the type presented on the program.

Tuesday's program was a radical departure from the club's usual custom in regard to programs, in that it presented only four artists, Mrs. Elsa Strehler, Mrs. William J. Caldwell, Miss Elise Ridley, and Delbert Fletcher, thus giving each a chance to sing a variety of numbers instead of the usual two or three.

Accompanists were Mrs. Richard K. Allen, Miss Mary Crawford, Miss Audrey Cromie, William Nelson and Arthur Canning, violinist.

This program of near professional quality was enjoyed by a large audience and several guests. Ushers were Mrs. William Gibson, Mrs. Paul McVey, Mrs. Gerald Nord, and Miss Ruth Weil. The decorative piece of autumnal flowers, fruits, and leaves arranged by Mrs. Delbert Fletcher was much admired.

Caldwell, director of the club, announced that the first rehearsal for the "Messiah" Handel's Christmas Oratorio will be held Monday, November 5, in the Y.W.C.A. at 7:30. This choral project is open to all singers and the request was made that each take his own music.

From Miss Charlotte Griffith Ryan who sang at the September meeting of the club, a note of thanks and good wishes was read.

Women's club extended an invitation to the Music club to attend an opening meeting on November 19 at 2:30 p. m. in Highland church to hear Dr. Pauline Berry Mark, of State College, who will speak on the subject, "World Food Problems."

During the meeting of the executive board which convened after the program, the following new members were taken into membership of the club: Mrs. Betty Smith, Miss Mary Louise Canning, Mrs. Anna Finney, Mrs. John M. Evans, and Miss Olive M. Cheneviller. Former members Mrs. Elsie Kaskin and Miss Rachel Taylor were reinstated.

What AMINOS in hospitals teach us about MEAT at home

READ THE MENUS for any of the service convalescent hospitals, and you'll find the word "MEAT" running through them, day in and day out—for breakfast, for dinner, for supper.

Take a look at the trays at Great Lakes, for example, and you'll see that the amount of meat is generous. Here is Corporal Charles W. Allman of the Fifth Marines, Colby Wis., wounded at Okinawa, getting his noontime meal with plenty of good juicy meat in it.

All this is because wartime medical science has demonstrated that, given plenty of meat, men suffering from wounds, burns, starvation or infections, recover faster.

The secret of meat's restorative power lies in "the amazing aminos" (a-mee-nos)—those mysterious substances in the proteins we eat which our bodies use to build and rebuild our tissues, organs, blood and infection-fighting antibodies.

What do these aminos in hospitals teach us about meat at home? Just this:

Children cannot grow and adults cannot rebuild tissues which wear out constantly in the process of living, without the amino acids of protein foods. Our blood cannot be regenerated—our resistance to many infections cannot be maintained unless we obtain them.

Knowledge gained through wartime medical advances is guiding women in the feeding of their families. Now we know that the amino acids in meat are as essential to maintaining healthy adult bodies as they are to repairing the bodies and rebuilding the health of fighters.

Three Plays At College Theater During This Week

Oleta Kirk Of New Castle Has Lead
In J. M. Barrie One-Act
Drama At Westminster

NEW WILMINGTON, Oct. 31.—The Little Theater at Westminster college opened its sixteenth season last night with the presentation of three one-act plays, the first of four productions to be given during the year. The plays will be presented through Friday.

"Camille," a condensation of the tragedy by Charles George, stars Helen Finlay, Pittsburgh sophomore, in the title role and is under the direction of Donald Barbe, assistant professor of speech.

Freshman Oleta M. Kirk, daughter of Mr. and Mrs. H. S. Kirk, of 205 Highland avenue, plays the leading role of Mrs. Dowey in J. M. Barrie's drama, "The Old Lady Shows Her Medals," directed by Miss Helen Cushman, speech instructor.

"The Ugly Duckling," a comedy by A. A. Milne, is also directed by Donald Barbe. Included in the cast are Tom Danner, of Ellwood City, and Joe Alter, of New Wilmington.

Plan For Plaza At Independence Hall

HARRISBURG, Oct. 31.—(INS.)—Plans for the development of a plaza at Independence Hall in Philadelphia moved forward today as the state prepared to allocate \$1,000,000 for the purchase of properties near the 213-year-old shrine.

Gov. Edward Martin announced the administration's intention "to give the greatest historical shrine in the Western Hemisphere the attention and the development it so richly deserves."

The state and city were scheduled to share the cost. Work was expected to be started when materials and manpower were available.

"Independence Hall is the common consent of all men a national shrine and Pennsylvania and Philadelphia will now proceed to do what the federal government, for generations has neglected to do," Governor Martin said.

Reports Eight Hundred Served

GROVE CITY, Oct. 31.—W. C. Sterrett reports that 800 buckwheat and sausage suppers were served in a five-hour period at the annual event held last week in Western state hall.

The grange had prepared 725 pounds of fresh pork sausage and 30 gallons of buckwheat batter, all of which was consumed. With the exception of the cooking, the work was done on 11 stoves, fired by oil or wood. At the peak, the audience was filled with people standing shoulder-to-shoulder, awaiting their turn in the dining room.

CANCER

Pat had a can of beer when he saw the preacher coming. He hastily stuck it under his vest. The preacher saw the lamp and said, "Turn on." "No," answered Pat, "it is a can of beer."

A good many people get cancer under their vest. It is found most often in people past middle life.

Many people do not find out that they have cancer until it is too late to do anything about it.

Cancer does not cause much trouble at first. There may be a slight indigestion. There may be slight discomfort after eating. There may be weakness or unusual tiredness.

If a person past 40 gets uncomfortable below the ribs, it is wise to have a thorough examination. If there is no cancer, no harm is done. If cancer is found early there is a good chance for help.

PITTSBURGH, Oct. 31.—(INS.)—The new, developed gun is the largest gun in the world—was the invention of the Mesta Machine Company of Pittsburgh.

The company was supposed to make small barrel firearms, but their engineers developed a superior machine and found the machine that the army and navy wanted.

It was the first time in war history that a machine gun had been given to a manufacturer. Lieutenant Colonel John W. Knight, of the Pittsburgh ordinance district, said.

Police Expect To Make Arrests In Double Murder

Bodies Of Man And Young Woman Found In Shallow Grave In Indiana

ROCKPORT, Ind., Oct. 31.—(INS)—State police admitted they had a "hot lead" that may bring a speedy arrest for the double murder of a man and young woman, whose bodies were found in a shallow grave near Rockport.

P. E. Mullins, of the state police, would not disclose anything further, but it was known that clues traced into four states, Indiana, Illinois, Missouri and Kentucky.

When the man's body was identified as that of 33-year-old George F. Tyson, of East St. Louis, it brought to an end a three months search for him for questioning in connection with two shootings in Madison, Ill., last July.

The woman was pretty, slim Ethel Sparks, 22, also of East St. Louis, believed by Rockport authorities to have been tortured before she was shot through the head.

Officers suggested that the slayers were seeking to force her to tell where she had hidden the \$3,200 in cash that police found in her brassiere after the bodies were removed from the clover field grave.

Both she and Tyson had been beaten about the head. He was shot three times, in the head, heart and abdomen. A rope was also drawn tight around Miss Sparks' neck.

Tyson had been sought for questioning about the shooting in Madison, July 16, of Joe Callahan, and the murder a week later of Thelma Walton, 22, also known as Kathryn Morrison, a waitress, and witness to the Callahan shooting.

AFTER TWIN PARKERS

Police have begun a watch for motorists, who double park cars in places where parking is prohibited and drive or park cars against current of traffic.

Crack Down On Black Market Ring In Tokyo

Four American Soldiers Included In Number Seized By Raiders

TOKYO, Oct. 31.—(INS)—American military police cracked down on a highly organized Tokyo black market ring by raiding the ring's headquarters in the Maranouchi hotel.

Scores of armed military police arrested four American soldiers, two Italians who until recently were interned with the Italian embassy staff, and two Japanese.

Sell U. S. Army Goods
In the last three nights, American authorities charge, the ring has sold more than \$476,000 worth of American army goods, chiefly army rations, woolen underwear (sold for \$27 a set) and sugar.

Some of the soldiers involved are suspected of connection with black market operations in the European theater while stationed there.

The Cosmopolitan Maranouchi hotel is the home of refugees of half a dozen nationalities.

Residents of the hotel were thrown into a panic as the helmeted MP's closed all entrances and swiftly went to the rooms of the ring's leaders.

Raid Interrupts Party
The raid interrupted a party given by the former Italian ambassador in honor of Maj. Gen. Charles Willoughby, chief of Gen. Douglas MacArthur's intelligence section.

The wife of one of the Italians arrested sat chatting gaily in the lobby of the hotel as her husband was marched past her at pistol point. A lavishly dressed European countess tried without success to appear nonchalant.

The stolen goods were bought at high prices by members of the European colony as well as wealthy Japanese.

Stan Martin Tells Of Typhoon Damage

Local Sailor Found Terrific Wind Too Strong To Buck And Fled To Hills For Safety

Stan Martin, 8 1/2, son of Mr. and Mrs. C. L. Martin, of Albert street, has written his parents telling of the terrific force of the typhoon which swept Okinawa on October 9, causing great damage and loss of life.

He was out in the storm from 4:30 p. m. until 4:30 a. m. and spent a miserable 12 hours, the high wind being accompanied by rain and cold temperatures.

When the storm struck, their tent and equipment were blown away and the men in his camp gathered in the mess hall, but had to leave there when the wind ripped off the roof. They were advised by their commanding officer to take to the hills for safety. He tried to make his way to a Seabee mess hall, which was still standing nearby, but was unable to move against the wind and joined his comrades in the hills, nearby.

The air was filled with flying debris of all kinds, but fortunately he escaped being struck, although the ordeal was a trying one.

He had been with an amphibious landing unit prior to the onset of hostilities, and since then has been stationed on Okinawa. There are 500 survivors from ships in the harbor, staying at their camp for the present, he stated.

Burns Detachment Will Have Banquet

Celebrating the 160th anniversary of the founding of the United States Marine Corps, the Gunners Sergeant Harry T. Burns detachment, Marine Corps league will hold a birthday dinner Saturday night, November 10, in The Castleton hotel.

The dinner is for Marines and their families but because of space limitations it is necessary to hold the crowd present to 100. Reservations can be made through Police Lieutenant Cecil F. Suber, but must be made before Wednesday night, November 7.

Commander Dale Lawson has appointed a number of committees to handle the details of the affair and a capacity crowd is looked for.

Why does the Government need eleven billion dollars when the war is over?
Why should you buy bonds when the fighting has stopped?

It Costs Money to Bring Them Back

It costs millions to bring them back. It costs as much as it did to take them out. You helped in seven War Bond campaigns to send them over; help in this one to get them back.

It costs millions to rehabilitate them. Nursing our soldiers, healing their shattered bodies and fitting them for useful work will be one of the costliest, but most necessary jobs of the Federal Government for years to come.

It costs millions to educate them. Money spent this way helps you, as well as them. The better they are trained and the better business men and better employees they become, the more stable and prosperous the nation will be in the future.

BRIDGE HEARING

A second hearing before the county commissioners and a board of viewers was held Monday morning in the matter of the county's being asked to aid in the repairing of a bridge in Wilmington township.

The road supervisors of the township had asked for help in either

REPAIRING OR REPLACING THE BRIDGE

At the hearing Monday morning it developed the cost of repairing the bridge would be less than \$1000. A report of the viewers will be filed but from their attitude at the hearing it seems apparent they favor the county furnishing the materials and the supervisors the labor.

THE JUDGE'S CHARGE
From an old record which was recently unearched it appears again that the county of Lawrence owes Judge W. Walter Bradham the sum of 75 cents with interest from December 29, 1908. On that date, D. A. Carr, justice of the peace of Wilmington township issued a certificate attesting that W. W. Bradham had killed a weasel and ears of said weasel were cut off and burned by me in the presence of Bert Shaw.

The bounty at that time was 75 cents but when Judge Bradham got

in from Volant the bounty fund was exhausted and he never got the money. By now it could be classed as a judge's charge.

Anyway it's a note just as coming season comes in.

SUPREME COURT FINDINGS

Two decisions in cases coming up from the Lawrence county courts have been handed down by the state supreme court and in each instance the Lawrence county court has been sustained.

In the case of the Medusa Portland Cement Co. against Lamington the decree is affirmed and the costs placed upon the plaintiff. This is a case where property was sold to the cement company and part of the purchase price paid. Some years later the company thought the title was defective and refused to pay the balance. The lower court found the company had not taken advantage of this in time.

In the case of Cox vs Scavazzo the judgment rendered in the Lawrence county court of \$8300 is affirmed. This was a case where a man stop-

ped out of the door of a cafe and down an opening through which beer was being delivered to the basement of a cafe.

SUIT IS DROPPED

PITTSBURGH, Oct. 31.—(INS)—The Pittsburgh district OPA had dropped its suit against the Bloomfield Packing company for alleged violations of price ceilings. Alvin J. Williams, deputy OPA regional administrator, today announced.

The case was a treble damage suit amounting to \$92,982.75.

Quarter Century Of Radio Broadcasting Recalls Early Days Here

Dr. Beryl D. Orris Speaks Here Friday

With the celebration of the first commercial broadcast which occurred twenty-five years ago, Thursday, it is interesting to look back through the years and view the progress that has been made by the industry.

It is a far cry from the old crystal sets used in those days to the modern television sets that are being manufactured at present.

One man in the city, Rex Patch, of 507 Florence avenue, recalls vividly some of the early incidents that happened just prior to that first broadcast that emanated from the City of Pittsburgh in 1920, relating the results of the Harding-Cox election.

Mr. Patch, who formerly resided in Bradford, picked up several S. O. S. messages in those early days regarding ships that were in distress but when he relayed the information to local townsfolk, they refused to believe him.

Old Crystal Set
"My old crystal set," related Mr. Patch, "consisted of a tuning coil, a coil of wire, a detector and a set of headphones. We didn't have any trouble with other stations interfering as there weren't any but we had to listen for the signal indicating that a message was coming through. The programs had a tendency to fade in and out back in those days."

In 1914, Mr. Patch operated his first set in New Castle and it caused quite a stir from everyone, wanting him to build them one like it. Shortly after that, he was granted the first sending and receiving license in the city from the federal government and was assigned the call letters 8HA which were changed about two years later to 3VN.

Build Early Radios

The demand for receiving sets grew so great, pioneer Patch decided to establish a radio manufacturing business in 1922, employing fifty people at the time. The business was conducted in the building now adjoining his Florence avenue home.

"The Rotary club of New Castle went to the plant on Florence avenue to help me celebrate the opening of this new field of business," continued Mr. Patch. "It was a gala occasion with everything there in the way of entertainment including two bar tenders but they had to confine their dispensing to soft drinks."

"Twenty-five years has made some radical changes in radio, as we formerly had to keep our selves glued to the ear phones if we didn't want to miss anything while now we can sit anywhere in the house without missing a thing that comes over the ether waves," said Mr. Patch in conclusion.

Hauser Denies His Confession

Now Asserts Officers Overlooked Clues As To Slayer Of Girl

UNIONTOWN, Pa., Oct. 31.—(INS)—Frederick E. Hauser today repudiated his confession that he strangled to death pretty Ann Elizabeth Dreger, the sunshine girl, and said officers have overlooked clues which will lead to the real slayer.

A statement penciled on eight sheets of paper was found in Hauser's cell in which he denied the slaying. Hauser is in solitary confinement after an unsuccessful attempt to break jail.

Hauser's second confession stated

that he loaned his car to "the other fellow" who left him out after getting into the car with Miss Dreger. "The other fellow" returned later and Hauser drove him home. The ex-sailor pointed out that officers failed to find fingerprints either on the victim's clothes or on her belt with which she was strangled to death.

Uniontown police said Hauser admitted in his original confession that he picked up Miss Dreger and drove around until they reached the top of a hill where her body was found in the underbrush.

Prospects For Farmers Given For Year 1946

WASHINGTON, Oct. 31.—(INS)—The Agriculture department predicted today that farmers' net incomes will decline in 1946—perhaps by as much as 15 per cent from their earnings this year.

In its annual report on the farm demand and price outlook, the department anticipated a continued high demand for agricultural products in 1946, both at home and abroad.

But prices and incomes to farmers are expected to be somewhat below the high levels of 1945, the report stated. "The net income of farmers might decline by as much as 15 per cent, but would still be more than double pre-war averages and higher than in any year prior to 1943, including the peak years immediately after the World War I."

"Since the prices of some non-farm products may advance, prices farmers pay probably will not decline as much as the prices they receive for their products."

A high level of civilian purchasing power coupled with a large volume of relief and export requirements is expected to keep the demand for farm products up throughout next year.

Agricultural Prospects
Following are highlights of agricultural prospects for 1946 as outlined by the department's bureau of agricultural economics:

Farm labor—Wage rates, now about three times their pre-war levels, are likely to remain relatively high, declining somewhat by mid-1946. During the war the farm labor supply is expected to increase.

Production expenses—Probably will reach a peak this year and decline in 1946.

Livestock and meats—Returns probably will average moderately lower in 1946 than this year.

Dairy products—Demand will be reduced moderately from 1945, primarily because of smaller civilian takings. Returns to dairy farmers likewise expected to drop.

Corn and other feed grains—Probably will average in price about as high as in 1945-46 as in 1944-45. Smaller quantities of corn probably will be marketed during the next 12 months, despite indicated strong commercial demand.

Wheat—Large export demands are expected to hold prices generally at about ceiling levels for remainder of current marketing year, with slightly lower prices for the 1946 crop.

Cotton—Returns from this season's crop should total about one billion 200 million dollars. Payable income situation of recent years should typify the 1946 and 1947 seasons.

Students Plan Series Of Campus Events To Add To Building Fund

NEW WILMINGTON, Oct. 31.—All college activities, the proceeds of which will go toward the building of the war memorial building, are being sponsored by different organizations on campus as part of the student campaign to raise \$6,000 for a Student Union at Westminister college.

Jeffers Hall freshman week dormitory starts the ball rolling Saturday with a barn dance for all students at College Hall.

General chairman of the benefit is Gloria McCanness, Butler. She is being assisted by Lois Telling, Summit, N. J.; Mary Louise Hubbard, Pittsburgh; Ruth Kartick, Bradford; Mary Lou Haven, Shippensburg; and Dolores Neuman, Buffalo.

The student drive, headed by the Howard and Students Council, has raised \$1,000 in its drive in soliciting students, faculty and various campus groups.

Certificate Given To Louis Aquaro

For his service as a member of the management-labor appeals panel of the War Manpower Commission since April 1943, Louis Aquaro, local business agent of the American Federation of Labor, has been awarded a certificate of merit by the WMC.

The certificate expresses the government's appreciation for faithful service in maintaining a stable labor force for the common cause of producing the tools of victory. The certificate is signed by Paul C. Lewis of the War Manpower Commission.

During the war New Castle was remarkably free from labor disputes due to the good judgment and willingness to cooperate by both management and labor. As a member of the appeals panel Mr. Aquaro had much to do with the peaceful discussions and common sense settlement of problems that in less competent hands might have resulted in costly disputes.

Donald Cioffi Home On Leave

Donald Cioffi, 31-year-old U. S. Navy of the Amphibious Corps, arrived home to spend a 30-day leave with his parents, Mr. and Mrs. D. E. Cioffi, 25 East Reynolds street, following two years of service.

Seaman Cioffi has seen plenty of action, and during the 18 months served overseas, has been stationed in Africa, France, Italy and Germany.

On May 5, 1945, he was injured while in France, and for the past several months, has been recuperating in a hospital in England.

The young seaman has returned with many lovely souvenirs gathered from his travels.

At the end of thirty days, he will report to New York City.

Restrictions On Approval Given UNRRA Funds

WASHINGTON, Oct. 31.—(INS)—The House Appropriations committee approved an additional 350 million dollars for UNRRA Tuesday on a sharply-restricted basis and directed that American participation in the world relief agency be ended completely by April 1947.

A provision was approved specifying that the United States should stop furnishing aid to Europe through the United Nations Relief and Rehabilitation Administration on December 31, 1946 and in China on March 31, 1947.

Must Allow Investigation
Hearings reports of UNRRA difficulties in some foreign countries, the committee specified that none of the funds shall be spent for relief in countries which do not allow UNRRA personnel freedom of movement to determine how the supplies are being distributed and consumed.

It specified further that no funds from the appropriation shall be spent after December 31, 1945, unless the relief agency has received "complete and accurate" information on the financial status of the countries applying for help.

A fourth provision calls upon the relief agency to purchase its food supplies so far as possible from stocks which have been declared surplus by the secretary of agriculture.

All four of these provisions were offered by Rep. Dickson (R-Ill.), who declined.

Need Cooperation
"If the authorities in those countries where distress exists show a proper attitude for their people and a disposition to cooperate, I am sure they can have no objection to the limitations which have been adopted by the committee."

At the same time, Dickson indicated possible Republican opposition to a proposal to have the United States authorize an additional one billion 350 million dollars for the international relief program next year. He said:

"I am sure that Congress will want to explore this request thoroughly before action is taken. The committee rejected a proposal by Dickson calling for suspension of a free press act for any nation receiving UNRRA aid."

Dickson's amendment would have provided that countries receiving relief must permit accredited representatives of the press to report on the activities of UNRRA without censorship.

Members said the amendment was defeated in a 16-15 vote in the committee. It is expected that the House will vote on the amendment at its proposal when the bill reaches the floor by House consideration—probably tomorrow.

State Teachers Colleges Not To Be Expanded Now

State Superintendent Of Public Instruction Against Expansion At Present

HARRISBURG, Oct. 31.—(INS)—Superintendent of Public Instruction Francis H. Haas told trustees of 15 state teacher colleges at the state capital today that he would not recommend expansion of the institutions under the \$7,000,000 bond established by the General Assembly.

The expansion, he said, was based on a survey of the colleges for the past 17 years.

During the period, Haas reported, there were never more than 9600 persons attending classes although the "instructional capacity" was 11,000 students.

No Expansions
"I am not going to make any recommendations for plan expansions on the basis of the capacity and enrollment since 1928," Haas declared.

He left the door open, however, to further action by the trustees if they were not satisfied with the decision and desired Gov. Edward Martin to intervene.

"I will not have the slightest objection if you go over my recommendations and the governor, in his wisdom, sees fit to grant the request," Haas declared.

The trustees, who convened at Harrisburg to organize an association in an attempt to strengthen their institutions in Pennsylvania's educational structure, were given assurances that all necessary repairs would be carried out and fire, health and general construction hazards removed.

Haas told the trustees that he proposed withholding \$200,000 from the \$4,800,000 biennial appropriation for "a cushion against a deficiency."

House Approves Tax Reduction Bill On Tuesday

WASHINGTON, Oct. 31.—(INS)—The House on Tuesday approved the five billion, 900 million dollar tax reduction bill, and sent it to the Senate.

The bill was approved by a vote of 297 to 33.

The upper body is expected to take final congressional action on the measure—first tax reduction bill in 16 years—on Thursday.

The bill removes 12 million lower income individuals from the federal tax roll next year.

It reduces individual tax payments by two billion, 644 million dollars while corporations will save three billion, 136 million dollars.

In addition, both individuals and businessmen will benefit by 140 million dollars through repeal of the 1936 dollar auto use stamp tax on July 1, 1946.

Report Large Scale Attack In North China

CHUNGKING, Oct. 31.—(INS)—A large-scale attack by an estimated 100,000 Communist troops against the strategic and mining center of Tating in China's North Shansi province, today was reported continuing unabated.

Tating, situated on the contested Peiping-Suiyuan and Tating-Puchow railways of the Chinese central government, was being attacked by cannon fire and tanks. The Communists were equipped with 43 cannon and 15 tanks according to information reaching Chungking.

Yen Hsi-Shan, governor of Shansi now in Chungking, appealed for immediate reinforcement of greatly outnumbered central government forces deterring Tating.

In Great Danger
"Tating and its coal mines are in great danger," Yen said. "They are defended by only 10,000 central government troops equipped with 10 cannon and no tanks."

The central government forces in Tating have been ordered to hold out against the Communists at all costs.

Yen said that he believed Gen. Chu Teh, chief of the Communist army, was directing the operations against Tating.

"I hope the central government will send reinforcements soon," Yen declared.

The Shansi governor said he had no knowledge as to how the Communists got the tanks they are using against Tating. He said the tanks were being employed by soldiers dressed like Mongolian troops.

Lt. Col. Jackson Home After Three Years' Service

Lt. Col. W. Fulton Jackson of 316 Edgewood avenue, returned home Tuesday night, October 30, after over three years in the armed forces, 21 months of which were spent in England as Chief of Dental and Executive Officer of General Hospital 93. Col. Jackson returned to the States last Saturday on the "Lake Champlain" an aircraft carrier transporting its first homebound troops.

In his service in England Col. Jackson had charge of the dental work necessary to men who had been wounded in the fighting in France and Germany and also had charge of the administrative work of the entire hospital.

Recently he was awarded a Certificate of Merit for outstanding work in clearing the hospital ship and returning it to the British government. The citation described the job as "in keeping with the highest tradition of the armed forces of the United States."

His son Edward is presently with the Marines at Camp Pendleton, California and his son Robert is petty officer with the Navy on duty in Tokyo bay. This is the second time Col. Jackson has returned home from overseas duty with the Army. In the first World War he served with the 37th Division in France.

NEW YORK, Oct. 30.—(INS).—Navy must play to trim the Irish in the Cleveland game on Saturday. The Irish are expected to be the better team, but Navy will have to play to win.

After handling the ball slowly, the Irish will have to play to win. Navy will have to play to win. Navy will have to play to win.

Such fumbling is unprecedented for a team that still is ranked No. 2 nationally. As a result, they will be no better than an even bet against Notre Dame and may even enter the contest as the underdog in the game.

Strangers to T. Unfamiliarity with the T-formation undoubtedly is responsible for much of this poor ball handling. It may be that like other teams which have made the switch, Navy will not master the intricacies of the "T" until next season.

Nevertheless, unless the sailors snap out of their slump, it would not surprise anyone to see the Irish defeat the Navy. The Irish are expected to be the better team, but Navy will have to play to win.

Having gotten this dire prediction off their chest, we should now like to enumerate Navy's strong points. The team has plenty of power, as witness its 21 first downs against a good Penn team. It is going to hit hard against Notre Dame. Traditionally a strong November team, it is going to start checking one of these Saturdays.

Navy also still is a tremendous defensive club. No team is going to move down the field at will against Navy. The Irish are expected to be the better team, but Navy will have to play to win.

Navy has a great passing attack itself, and Coach Oscar Hauger himself sees a wide-open attack as his team's only hope against the Irish. "We've got to open up sooner and more, because Penn could have beaten us," he says. "We stop the middle until we're blue in the face, and then we can't win that way. Saturday it must be different."

Expect 65,000 To Hunt On Thursday

Hunt Safely Is Advice To Hunters As Small Game Season Arrives

HARRISBURG, Oct. 31.—(INS).—The state game commission reported today that approximately 65,000 hunters were expected to participate in the 1945 small game season which opens at 9 a. m. November 1.

The commission reiterated its appeal to hunters to use caution during the month long season. Tomorrow's hunting hours will be from 9 a. m. to 5 p. m. and thereafter 7 a. m. to 5 p. m. daily.

"Hunt Safely! Return Safely!" should be every hunter's slogan this season," the commission asserted.

No Rift Among Louis' Handlers Julian Black Says

No Split With Managers Black Contends, Thinks Louis Needs Tune-Up Bout

HOT SPRINGS, Ark., Oct. 31.—(INS).—Julian Black, co-manager of Joe Louis, denied Monday that the world champion had split with his managers or that there had been any rift.

"The last time I saw Louis was at the world series in Chicago. He did not intimate then that he was dissatisfied or had been looking for a new manager."

"John Roxborough and I have had him since 1934 when he left the golden gloves to become a professional. He did tell me he wanted at least ten months of complete rest—no engagement of any kind until after June 1. He will fight Billy Conn in June and will beat him again."

Black said of Gene Tunney's recent disparaging comment on the forthcoming Louis-Conn bout: "It was quite a blast, wasn't it? I agree that Joe should have a couple of fights before he meets Conn. Gene was right there, but wrong when he said Louis and Conn were old men. Neither is an old man and won't be for years."

MAY LOSE MAYLANDER

MORGANTOWN, W. Va., Oct. 31.—(INS).—West Virginia mountaineers who met undefeated Virginia Saturday may lose Dick Maylander, sharp pass receiving end, for the game. He was injured in last week's game with Maryland.

The loss of Maylander would hurt the Mountaineers, who only yesterday received word that Virginia would be without the services of Co-Captain Hank Walker, Jack Holz and Clyde Johnson. They won commissions in the navy.

FRANK AKINS IS LEADING GROUND GAINER OF PROS

Washington Redskins Fullback Has Had Good Ground Gaining Season To Date

CHICAGO, Oct. 31.—Although he found the New York Giants' line tougher than that of the Philadelphia Eagles the week before, Frank Akins, Washington fullback, increased his lead among the National football league ground gainers over the week-end.

Hitting the Giants forward wall for a net gain of 48 yards, Akins now has a margin of 62 yards over Steve Van Buren of the Eagles, who was held to 22 yards in 14 attempts in Philadelphia's triumph over the Cleveland Rams. Akins' total to date is 279 against 275 for the fleet footed Van Buren.

Two changes in individual leadership in the pro circuit saw Steve Bagarus, also of Washington, move up from third place to first among punt handlers, and Johnny Martin, Boston Yanks, jump from fourth place to take over the lead among kick-off handlers.

Union High School football team will ring down the curtain on the 1945 season Friday afternoon at the Union High field by meeting the Mercer High Mustangs. The game will start at 2:30 o'clock.

High Gridirers Seek 7th Win

Hope To Defeat Aliquippa And Ring Up Fifth Class AA Victory Of Year

New Castle High football team will be out Friday night at the stadium to try for their seventh win of the current season, their fourth class AA victory and to try and avenge the 12 to 0 setback suffered at Aliquippa last year.

The team will face a New Castle team from the town of Aliquippa. The team will face a New Castle team from the town of Aliquippa.

There is a remote possibility that New Castle is not out of the class AA title picture, despite the loss at Aliquippa, providing Donora finds the Lions too tough Saturday, and New Kensington drops to Redstone, in which case New Castle would be very much back in the picture.

Stranger things have happened, therefore New Castle will be looking hard Friday to dump the Lions.

Would Welcome Playoff

New Castle's very convincing 27 to 7 defeat of Clairton after Donora could eke out a small 7 to 0 win over the Bears, makes one stop and wonder just how good this Donora club really is. New Castle would like nothing better than to get a crack at the Dragons.

The team, providing New Kensington and Donora lose, could order a playoff game, and New Castle would get consideration for its splendid showing, providing again that New Castle upsets Aliquippa with a big win.

Head Coach Phil Bradenbaugh is driving the New Castle team hard this week, he wants to defeat Aliquippa. So do the boys want to win this one.

Chandler Favors Cincinnati Reds In Player Mixup

Reds Seven Players To Good As Birmingham Loses Appeal To High Commissioner

CHICAGO, Oct. 31.—(INS).—The Cincinnati Reds were seven players to the good today after A. B. Chandler's first decision as baseball commissioner.

Chandler allowed the Cincinnati Reds to keep seven players of the Birmingham club, club of the Southern association.

Chandler's ruling, released in Chicago, held "Cincinnati has fulfilled its part of a working agreement with the Birmingham Baseball club and is entitled to the player contracts it has selected from Birmingham under that agreement."

Wanted Better Others

Leslie O'Connor, Cincinnati's special assistant, said Birmingham sought title to pitcher John Hefley and six other players at the hearing in Washington, October 26.

John Hefley, Birmingham pitcher, contended that the Reds failed to send Birmingham qualified players under a working agreement. He said this alleged failure constituted a breach of contract.

"The players tendered as were a bunch of non-professionals who could not reasonably be expected to play in a 1-A league," Hefley asserted.

Walter Giles, Cincinnati business manager, countered that if the Reds had held back any capable players "we ourselves wouldn't have finished seventh in the National League."

Home? Not this lad.

From here he goes to another hospital, for more weary weeks, or may be months. And after that, he'll go to a place where they specialize in quieting war-torn nerves, where trained, helpful hands and minds will work to guide him, step by step, along the slow road back.

Eventually, if everything goes well, he'll be able to take a place in our normal, work-a-day world.

How well things go for him depends a lot on us.

One of the biggest things we can do for him is to buy Victory Bonds now. Bonds

HERE AND THERE IN SPORTS' LAND

ONLY two changes in individual leadership transpired over the week-end as National Football League teams reached the half-way point in their 1945 schedule. Steve Bagarus, the erstwhile soldier and Notre Dame star, who has become Sammy Baugh's favorite target in the Washington Redskins' aerial attack, moved up from third place to first among punt handlers and Johnny Martin, moved up from fourth place to first among kick-off handlers.

Bagarus has returned 16 punts 114 yards for an average of 11.4 yards per return, with a best effort of 33 yards against Pittsburgh on October 24 and again against the New York Giants last Sunday. Martin, who took an early lead among ball carriers, only to drop back to fourth place as the Yanks began encountering more accomplished defenses, has returned eight kickoffs 133 yards. His average return is 24.1 yards with a best effort of 28 yards against Pittsburgh last week.

Frank Akins, Washington fullback, increased his lead over Steve Van Buren of Philadelphia in ball carrying, hitting the Giant line for a net gain of 48 yards last week, while Van Buren was being held to 22 in 14 attempts in the Eagles' triumph over the Cleveland Rams. Akins now has an advantage of 62 yards over Van Buren, who has an average of 62 yards per carry. Akins' total to date is 279 against 275 for the fleet footed Van Buren.

Coast Guard Spar Band
Here On Saturday Night

There was a time in the history
 of the armed forces that the sug-
 gestion of a woman's band as a part
 of the service would have been
 brushed off like a horsefly in a
 racing stable. How times have
 changed. During the war the Coast
 Guard Spar Band was one of the
 crack musical units of the service
 and it is presently touring the east-
 ern United States in behalf of the
 Victory Loan.

The band will be in the Cathedral
 Saturday night November 3 with a
 program of symphonic extracts.

light opera and popular arrange-
 ments of the lighter classics. The
 band is under direction of Spar
 Lieutenant J. M. Mattha Reider.

Tickets for the Spar band concert
 are available exclusively through
 the house-to-house solicitors of the
 Victory Loan campaign. Each band
 salesman has band tickets and each
 band holder is entitled to a ticket
 for his band.

In addition to playing in New
 Castle the Spar band will appear
 in Esser in the afternoon. The
 New Castle concert is at eight
 o'clock Saturday night.

Mahoningtown Soldier Writes From Okinawa

In a letter to The News-Tribune, J. J. Ludwick, of 1008 North Ashland avenue writes that he is counting the days when he will leave Okinawa, and be back in the old home town once more.

Set Ludwick writes that he has been nine months since he has been overseas and that he has down twenty-seven missions (tours) earning him one hundred points more than enough for his discharge.

"The natives have to be watched," the Seventh Ward G. I. reported, but the most difficult thing we have to put up with is the money exchange. A hundred American dollars can be changed for 1500 Yen. A carton of American cigarettes will bring twenty American dollars.

Ludwick has received six battle stars, the Air Medal with Bronze and Oak Leaf Cluster in addition to his Good Conduct Medal.

S-Sgt. James E. Flynn Now Presumed Dead

Presumption Of Death Made Since Local Airman Has Not Been Heard From For 20 Months

Mr. and Mrs. James J. Flynn of 8 East Edison avenue have received official word from the war department, stating that their son, S-Sgt. James E. Flynn who has been missing since February 23, 1944, is now presumed to be dead.

S-Sgt. Flynn has been missing since his squadron, on a bombing mission, was heavily attacked by German fighters and many of the bombers were shot down. Four of the crew of his bomber, including S-Sgt. Flynn, were lost.

Letter Of Explanation
The letter of explanation, just received by Mr. and Mrs. Flynn, reads as follows:

"Since no actual facts pertaining to him are definitely known, your son's case was received and continued as missing in action up to this date. The law provides that a subsequent review shall be made whenever warranted. Upon such subsequent review, the making of a finding of death is authorized."

"All available records and reports concerning the absence of your son have been carefully investigated and are deemed to warrant a subsequent review of his case. Information in the hands of the war department indicated your son was a member of a B-24 bomber crew, which failed to return from a bombing mission to Steyr, Austria, on February 23, 1944. Over West Austria, the formation was attacked by a large number of enemy fighter planes, and your son's aircraft was forced down because of damage sustained in the engagement. He was last seen in the plane, apparently unharmed."

"Since no information has been received which would support a presumption of his continued survival, the war department must now terminate your son's absence by a presumptive finding of death. Accordingly an official finding of death has been recorded. This finding does not establish an actual or probable date of his death. In the case of your son, this date has been set for October 12, 1945."

Was 23 Years Old
James E. Flynn was 23 years of age, having been born on May 12, 1924. He attended St. Mary's school and church, and for eight years served as altar boy there.

The graduated from New Castle high school in the class of 1940, after which he was employed at the Carnegie-Illinois tin mill and Johnson Bronze Co. Just prior to entering service, he worked at the Shibe Tube plant in Ellwood City. Besides his parents, he is survived by two sisters, Donna Jean and Barbara Levin.

He trained at Keesler Field, Miss. Scott Field, Ill., Alamogordo, N. M., Tucson, Ariz. and Laredo, Tex. He was a radio operator and gunner. On November 23, he flew to Paris in a B-24 bomber, where he was shot into action almost immediately. He was reported as missing on his 10th mission and had received the air medal and oak leaf cluster.

Hunt Attendant Missing From State Hospital

ALLENTOWN, Oct. 31.—(INS)—Pennsylvania and New York state troopers intensified their search today for William H. Yost, 32, who disappeared from Allentown State hospital ward where he was an attendant, soon after Myron Semenuchick an inmate escaped.

Dr. Harry F. Hoffman, hospital superintendent, said Yost told him he was to leave for the escape of the 14-year-old convicted sex-slave of Mae Barrett, 9, of Vandling.

Yost, who was last seen yesterday in Allentown, was on night attendant duty in the hospital ward when Semenuchick dashed past him and fled through an open door.

The youth was transported along with Mabel Harris, 15, a Philadelphia who escaped from the hospital on Thursday. She allegedly told police she aided in Semenuchick's escape.

Li. A. Cook, of the state police, said the convicted slave would be transferred to Western Psychiatric hospital at Pittsburgh.

CHILD RESPONDS READILY WHEN TOLD THE TRUTH
Although everyone is familiar with the saying "honesty is the best policy," adults sometimes feel this does not always hold true in dealing with small children. Points out Miss Marguerite Little, extension specialist in child care of the Pennsylvania State college.
Parents frequently are guilty of slipping away from their children when they are asleep or otherwise occupied. Some parents think it is the smart thing to do to give a child an incorrect answer to a question. Children are sometimes told that terrible things will happen to them if they do certain acts or fail to comply with the adults' wishes. These practices may bring good immediate results, but in the long run may prove detrimental to the child as well as to the relationship between him and his parents or other adults.
It is quite natural for the small child to cry when he sees his mother go away and leave him in the care of someone else. However, there are several ways to better the situation.
First, the mother may encourage other persons to take some care of the child while she is around. The child will feel more at ease if he knows the person who is taking care of him. The mother can reassure the child by telling him where she is going and when she will return. For example to say "I am going to buy some vegetables and will be back at lunch time" is a time the child can understand.
Although she looks into a tearful face, the mother should smile and wave as she leaves. The crying usually lessens and when the child sees his mother return as she said she would, the next parting will be easier. Hardships are less difficult to bear when they can be faced knowing the facts.
A child readily responds to being told the truth although it may hurt. His reasoning grows logically and the foundation for having trust in people is laid. The first knocks from much of their severity if the child can encounter them while he still is in the security of the family.
